Sprint 4 Plan - CSE 115 – Software Methodology

Product name: SlugEvents
Team name: Jullig Jammers
Sprint completion date: June 6, 2023
Revision number: 1.0
Revision date: May 23, 2023

· **Goal: Establish a Google Map view of the existing Events**

organized by user story: This section lists the user stories, in priority order from most important (top) to least important (bottom). Within each user story, there needs to be a list of tasks required to implement the user story, along with the time estimate for each tasks (preferably less than or equal to 6 ideal hours). This should look like:

User story 1: As a student, I would like to be able to send events to Google Calendar (Save events to google calendar)
Task 1 description: Connect send to google calendar button to backend

User story 2: As a student on campus, I would like to be able to filter different events with map visualization (Map Visualization)

Total for user story 1: 10 hours

· **Team roles:** Give a listing of all team members. Next to the team member, list their role(s) for this sprint. Assign each person to at least one role (for example, this role might be "Developer"). This looks like:
Charlotte Liang: Product Owner, Developer
Alex Liu: Developer
Derek Morimoto: Developer
Ray Zayas:, Developer
Edison Chen: Scrum Master, Developer
Avneesh Muralitharan: Developer

· **Initial task assignment:** A listing of each team member, with their first user story and task
Charlotte Liang: User Story 1: Task 1
Alex Liu: User Story 1: Task 1
*Derek Morimoto: User Story 1: Task 1*
Ray Zayas: User Story 1: Task 1
*Edison Chen: User Story 1: Task 1*
Avneesh Muralitharan: User Story 1: Task 1

· **Initial burnup chart:**

Sprint 4 Burnup Chart

· **Initial scrum board:**

· **Scrum times: MON & WED & FRI After class**
